

HOSHIZAKI

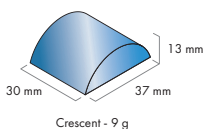

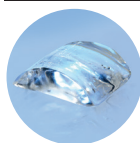

KM-40B

Crescent Ice Maker, Self Contained Daily production up to 43 kg

MODELS AVAILABLE

□ KM-40B

Easy accessibility for service via front of unit Reduced water and energy consumption maximum storage capacity stainless steel evaporator.

Due to the half-moon shape and the consistent cube size, maximum storage bin capacity is optimised.

Refrigerant: R134a / 140g

FEATURES

- Extremely versatile ice. Extends from the splash-free serving of post mix soft drinks through to diverse applications such as sh transportation, bottle and sh display and even laser therapy. Suitable for fast selling establishments such as nightclubs, sporting and entertainment events.
- KM machines produce clear, crescent shaped ice. The unique shape is built from the inside out with an internal temperature of -4oC.
- An easily cleanable air lter allows users to carry out routine cleaning themselves, extending machine life and cutting the frequency and cost of maintenance call-outs.
